Jeff James, V.P. Aerospace Education, jeffreyw james77@yahoo.com
Scott Wilson, Chapter 215 President
Janelle Stafford, Chapter Secretary, janelle@tbip.net
Marc Stewart, Chapter Vice President, me@marcstewart.us
Mark Tarpley, AFA State Representative

The Air Force Association STEM-based educational programs’ primary objective is to cultivate tomorrow's leaders with Aerospace Education and STEM. The AFA believes in the power that students hold in securing our nation's future and we equip students with the knowledge and skills required for future innovation by increasing the number of students and teachers in STEM fields. The Air Force Association, Gerrity Chapter 215 is part of the nationwide initiative to improve STEM learning and aerospace education that will better prepare students for the competitive global economy and increase their changes of becoming future leaders who solve our nation's toughest challenges. We also support aerospace education and STEM through awards, grants, scholarships, professional development opportunities, and programs.

Ann Marshall, bluestem@fortreno.org, bluestem@elrenops.org
Dr. Kristy Ehlers, kehlers@elrenops.org
Gina Wilkerson, bluestemevents@fortreno.org
Tricia Virtue, art&tech@fortreno.org

A collaborative effort between the USDA Grazinglands Research Laboratory, the purpose of this center is to strengthen ties between Agriculture Research Service (ARS) and local school districts, to enhance STEM (science, technology, engineering, and math) educational opportunities for elementary, secondary, undergraduate and graduate students through outreach and education, internships and student research projects. We also strive to improve communication about the importance of STEM, STEAM (science, technology, engineering, art, and math), and STREAM (science, technology, research/reading, engineering, art, and math) in today’s education systems and workforce. We provide professional development for teachers and civic groups, field trips, outdoor education days, family science nights, citizen science events, and special projects. #stemrocks

Dynos.io ~ An Okie EdTech Product  
13704 S BROOKLINE AVE  
OKLAHOMA CITY

Website:  https://www.dynos.io  
Facebook:  https://www.facebook.com/Dynosio  
Twitter:  Dynosio

Pramod Vadrevu, pramod@dynos.io, contact@dynos.io  
Jordan Cotter, jordan@dynos.io

Dynos.io offers a unique, easy-to-use, all-in-one dynamic content creator which students or teachers can use to compose powerful interactive content by adding dynamic elements anywhere in the content - be it a lesson, a quiz or any project.  Without having to write a single line of code, dynamic elements such as sliders, dropdowns, text boxes, equations, plots, shapes, tables, mediacan be added and dynamically updated with the help of spreadsheet-style functions and expressions.  Dynos.io is a time saver. It saves a lot of time for educators as the content created can be turnedinto a graded quiz or a practice assignment at any time and shared with all or selected students. It integrates into LMS as LTI and gathers necessary teacher/student info as well as uploads grades back to LMS.  Dynos.io is easy: With Dynos.io, all educators need to worry about it their teaching content and the logic they wish to convey and Dynos.io takes care of all the wiring behind interaction.  They can simply write any content they want just like how they do with any other writing editors. Dynos.io is a great tool to implement computational thinking across the curriculum. Students will love it. Dynos.io makes project-based learning more fun!  Students get 'aha' moments by quickly creating fun calculators, plots and other dynamic content as part of their projects.
East Central University
1100 East 14th Street
Ada, OK 74820

Website: https://www.ecok.edu

Twitter:  @GirlsWhoCode

Emily Ong, emily.ong@girlswhocode.com

Girls Who Code Clubs are FREE after-school programs for 3rd-5th or 6th-12th grade girls to join a sisterhood of supportive peers and role models and use computer science to change the world. Through fun and interactive curricula, Club girls not only learn about how to positively impact their community through code, but they also are taught to be brave and resilient – which has enormous impact on how they approach challenges and whether they stick with coding in the years to come. Girls Who Code has already reached 90,000 girls across the country, but that’s just the beginning. Join the movement today by starting your own Girls Who Code Club in your community!

Donna Bigbee, dbbigbee@earthlink.net  
Kathleen Messenbaugh, jkm95@cox.net

Maker Maven is a full service S.T.E.A.M and maker education company dedicated to helping schools, libraries and districts start or add to their maker education initiative. We can help with all phases of your maker education initiative and offer maker kits, individual activities, custom orders, and professional development services.

Maker Maven S.T.E.A.M. kits are designed for students to Unbox & Start Making™ and encourage basic S.T.R.E.A.M. (Science, Technology, Reading, Arts, and Math) concepts through project based learning activities. We currently offer 3 kits. Each kit contains various S.T.E.A.M. activities that come complete with instructions, materials, and resource cards that incorporate project based/inquiry based focus question(s) and extension activities.

Facebook: https://www.facebook.com/NSUOKEducation/

Dr. Jim Ferrell, ferrellj@nsuok.edu
Dr. Kelli Carney, carneyka@nsuok.edu
Dr. Alesha Baker, bakera@nsuok.edu

The College of Education at Northeastern State University is proud to prepare educators, psychologists, and fitness/health professionals to serve Oklahoma and the entire nation. Whether your career goals center around teaching in public schools, working with those seeking healthier physical and mental lifestyles, or attending graduate college for advanced preparation, the College of Education wants to help you reach your dreams.

Our heritage of service and excellence dates back to the Cherokee National Female Seminary founded in 1846. Our faculty focus on preparing professionals who are teaching scholars, educational leaders, and developers of human potential. Our teacher candidates and other graduates are committed to excellence in their fields and making a difference in their communities.

The College of Education offers programs online and at the Tahlequah, Muskogee, and Broken Arrow campuses. Six undergraduate degrees, nine graduate degrees, and four certifications are available. All education programs are accredited by the National Council for Accreditation of Teacher Education (NCATE), and at the state level, by the Office of Educational Quality and Accountability (OEQA). All other professional programs are aligned with national standards.

Cynthia DePalma, President
Marcia Rains, OTA Representative for OAGCT

OAGCT is a not-for-profit volunteer association founded to bring together concerned professionals and other persons interested in gifted, creative, and talented youth for their mutual support and growth. Our vision is a challenging education that reaches and stretches potential for all students. We envision a point in time when an equitable, appropriate, and challenging education, aligned with potential, is delivered to all children. We envision a time when teachers and parents are trained to understand and reach that potential in the most effective way possible.

Our Mission: To promote, support, and improve appropriate educational opportunities; To inform the general public of the needs of gifted, creative, talented youth; To disseminate news and information of interest and concern; To foster professional growth of educators; To support legislation and funding for programs; To work in cooperation with and support of the philosophy and goals of NAGC; To provide a forum for the exchange of information and ideas among the membership

The mission of the Oklahoma School of Science and Mathematics is:
To educate students who show promise of exceptional academic development through a program of instruction and discovery that challenges them far beyond the traditional high school model, imparting a superior foundation for careers in science, technology, engineering, and mathematics fields.
To serve as a catalyst for advancing public school STEM education in Oklahoma by providing residential, regional, summer, and virtual learning programs that extend advanced science and math education to a diverse student demographic.
To inspire students to make a difference in the State of Oklahoma and the world by leveraging their knowledge and curiosity for the betterment of mankind.

Troy Talley, ttalley@rfip.com

Oklahoma City-based RFIP, founded in 2005, has a rich history of providing all types of Wireless/Wired Solutions. Our Data Connectivity, Network Security and Structured Cabling projects have been implemented within Primary Education, Higher Education, City Wide Municipalities, Large Public Venues and Fortune 500 companies across the nation.
RFIP was one of the nation’s first technology companies to focus specifically on large scale wireless implementations. Today, RFIP is a national leader in successful outdoor/indoor wireless and security consultations, designs, deployment, post-project support and service level agreements. Providing detailed scope to each solution, RFIP delivers predictable project performance and solid business continuity. With more than 6,000 square miles of outdoor WIFI systems installed, our experience is second-to-non. School Systems, Colleges, Universities, Municipalities and Enterprises across the county have come to depend on RFIP for all their wireless needs.
"RFIP is a Native American, minority-owned business enterprise"

OK

Website:  www.schoolsafeid.com  www.okschoolpics.com

Bart Baker, bart.baker@schoolsafeid.com
Jason Pierce, jason.pierce@okschoolpics.com
Sarah Baker

SchoolSAFEid is a privately-owned software company, based in Oklahoma City, Oklahoma, that specializes in cloud-based identification software that generates printable student ID card, as well as visitor management systems.

Our visitor check-in software enhances security and communication for schools and businesses. It can be run from a kiosk, or existing computer, in a school or business main office. The easy-to-use system walks visitors through the process, requiring them to scan a valid driver's license. The software compares the name and date of birth on the ID to the national database of registered sex offenders. Once approved, the system generates a visitor's pass.

Our student ID software incorporates barcodes, school logos, mascots, special colors for each grade, and so much more. If you don't currently have an ID printing solution, or if you would rather have a cloud-based solution that doesn't require installing software on a specific computer, we can help.
